SERATIN

INTRODUCTION

Welcome to Seratin. We specialize in creating carefully crafted formulations and packaging, offering a diverse range of products designed to meet the needs of various markets around the world. All product development takes place in our in-house lab, giving us full control over formulation integrity, testing, and quality assurance from start to finish. While we also offer private label services, our focus remains on developing and manufacturing Organic Certified products that reflect our core values and expertise. From custom formulations to packaging solutions, we work closely with our partners to ensure each product delivers exceptional results.

OUR BUSINESS SCOPE

COSMETICS

Cosmetics are full of meaning that give everyone self-confidence, enable them to blossom and open up to others and contribute to individual and collective well-being.

Seratin has the most varied, richest and most powerful formulation portfolio. This abounding portfolio enables it to meet the expectations of consumers all over the world.

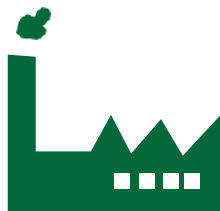

PHARMACEUTICALS

All around the world, health related concerns are increasing day by day and people are looking for new ways to take greater control of their personal health and well-being.

At Seratin, we strive to make people's life healthier and we are devoting ourselves to development of pharmaceuticals with natural substances independently.

PACKAGING

DESIGN

Our goal is to create collections that are unique. We strive to create products that stand apart in their uncompromising quality and attention to detail.

MOULD

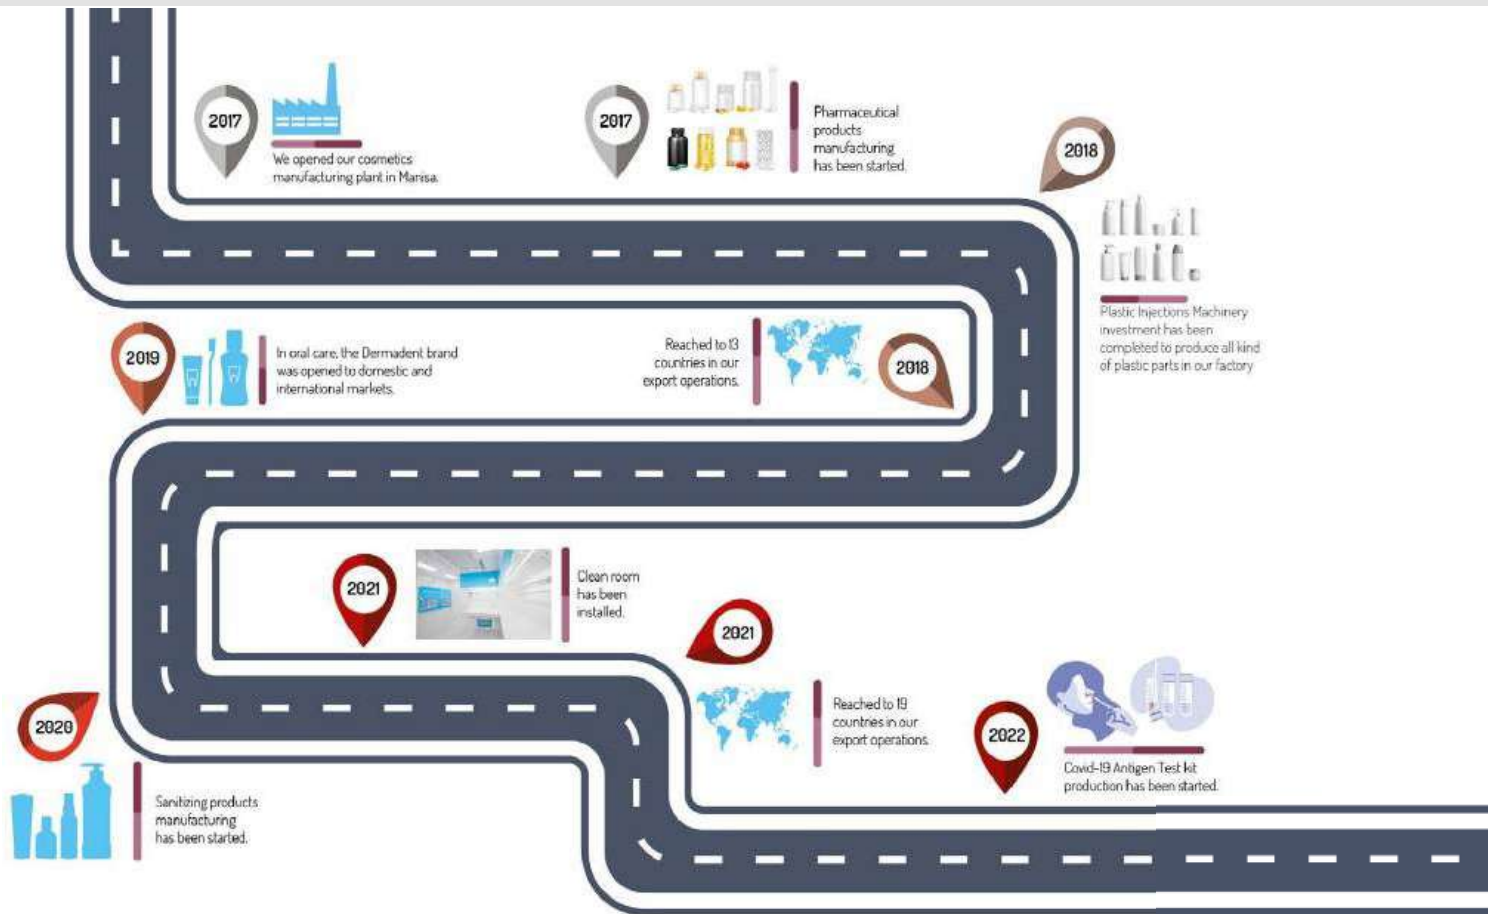

We offer complete inhouse solution for mold making. Our packaging factory has all the facility for all in one solution.

PRODUCTION

We have the most varied, richest and most powerful production facilities that fulfill customers requirements.

OUR HISTORY

OUR PHILOSOPHY

HUMAN

The organic management is our principle that improves the capability of employee. We actively support each of individual employees working for what they are able to do their best and suitable work.

TECHNOLOGY

We challenge to develop new technology in order to make a leap toward world first class R&D manufacturing and specialized corporation.

RESPONSIBILITY

With responsibility, we participate in the business management of each division and build up the environment which we can control our own performance.

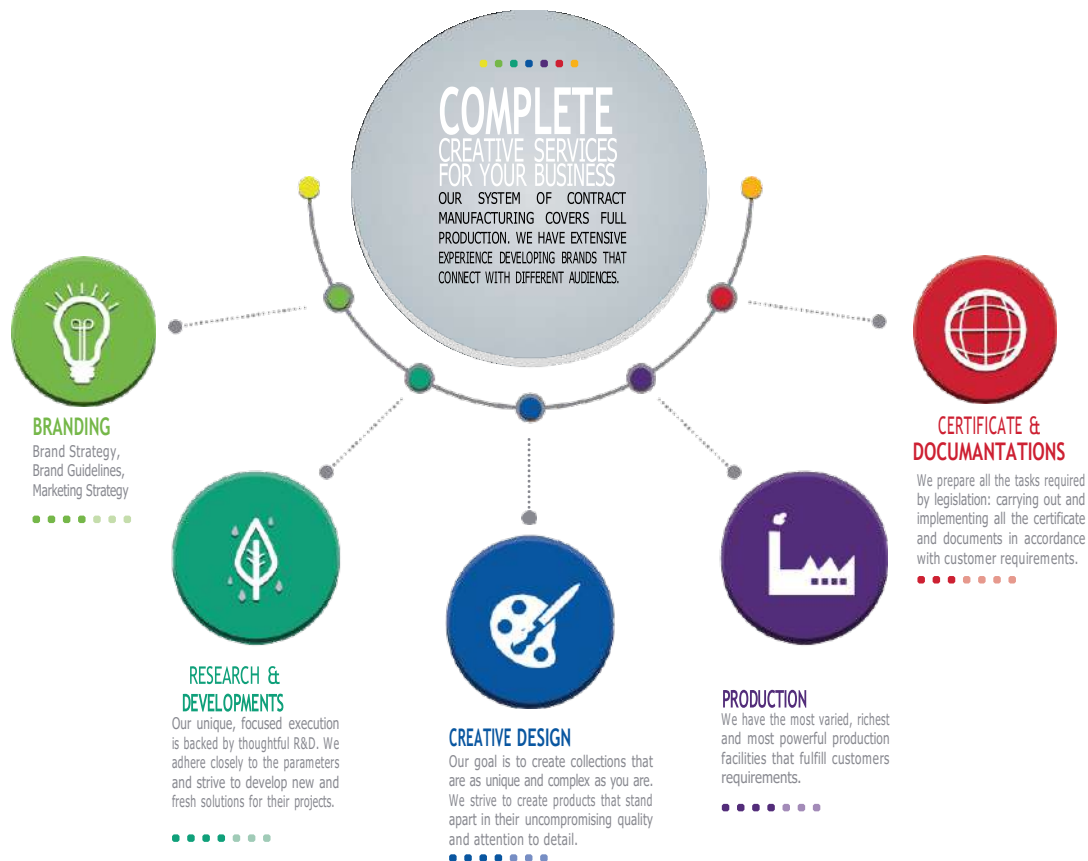

VALUE

We grow with our client by creating shared (their) value. As providing ODM total service to the clients, we succeed only when our clients succeed.
